7th June 2017

To,
The Registrar,
University of Mumbai

Sub: Your communication no ICD/ 2016-17/304/2017 dated 05th June 2017

Sir,

Our office is in receipt of your above mentioned communication received by hand on 6th June 2017 through an unknown man. I am aware of the status of admissions in our college which have been given fairly, purely on the basis of merit and all those who approached me for admissions were made aware of the merit criterion. We have strived to strike a balance between all departments and all my actions are to protect the existing workload of all departments and members of the staff; some of which are facing problem of workload in the last two years due to steadily dwindling numbers of students in certain subjects. We have adopted a policy wherein recommended minimum number of T.Y.B.Sc. students are enrolled in departments having their own Applied Component subject. Hence the procedure as laid down by the University has been followed in admissions and work load of all teachers in the departments of Mathematics and Physics is protected. Students were never compelled as stated. The department of Physics is receiving funding from Ministry of Science and Technology under Star College Scheme and there is mandatory requirement of a certain minimum number of students in the department. In spite of the above, if you feel that any individual/s has/have been adversely affected, kindly convey the details of the student/s so that I can rectify matters as per merit.

Thanks and Regards,

Yours sincerely,

PRINCIPAL
